

Aqua Silver

WATER TREATMENT

HIGH PERSISTENCE WATER SANITIZER

Main features:

AQUA SILVER is an advanced sanitizer, composed of a stabilized solution of hydrogen peroxide and silver salts. Designed to ensure effective and long-lasting cleaning, it is ideal for the treatment of tanks and pipes of sanitary water, both hot and cold. The product decomposes completely in diluted aqueous solution, offering a safe and environmentally friendly option.

Mechanism of action

The combination of hydrogen peroxide and silver salts enhances the oxidant activity, quickly deactivating microorganisms and impurities. The rate of decomposition of the product is proportional to the level of contaminants present, ensuring a targeted and high efficiency hygiene.

COMPOSITION

Oxygenated water
Silver salts

C.P CHARACTERISTICS

pH<2
Density..... 1.12+/- 0.5
ColorColorless
Smell Pungent
SolubilityCompleted

FORMULATION

Liquid

CLASSIFICATION

Danger

PACKAGING

Tank10 L
Tank20 L
Barrel200 L
Cistern1000 L

APPLICATION

INSTRUCTIONS FOR USE

Proportional dosing systems with pulse-lance counter are recommended.

- Continuous dosing in clean water 20 -40 ml/1000 L of water (20-40 ppm)
- Shock dosage 60 - 120 ml/1000 L of water (60-120 ppm)
