APPLICATION

Made in Italy

Main features:

MIX PK is a formulated fertilizer to meet the needs of specialized agriculture, providing readily assimilable organic matter and phosphorus. Stimulates the compact growth of plants, favoring the formation of flowering and vegetative buds, improving the quality and quantity of productions.

Mechanism of action

MIX PK accelerates the metabolism of plants, promotes the synthesis of phytoalexins and strengthens tissues with more resistant cell walls. The combined action of phosphorus and organic substance improves resistance to stress and promotes balanced growth, ensuring healthy crops and greater durability.
