

Serra Clean

CLEAN AND TRANSPARENT TOWELS

CLEANING SOLUTION FOR PLASTIC SHEETS

Main features:

SERRA CLEAN is a specific detergent for cleaning plastic or glass roofs of greenhouses, ideal at the end of the cultivation cycle to remove chemical residues, fertilizers, shading agents and particulates. Its formulation includes corrosion inhibitors that protect even the most delicate materials, helping to prolong the functionality of the covers and improving the brightness for crops.

Mechanism of action

SERRA CLEAN acts by melting and removing accumulated deposits, preventing structural damage to the covers. Applied in advance, it facilitates the release of residues thanks to rain, maintaining the elasticity and softness of the sheets, protecting them from tears and wear caused by sunlight and particulates.

COMPOSITION

Organic solvents
Surfactants
Sequestrants
Corrosion inhibitors

C.P CHARACTERISTICS

pH 12.30 +/- 0.5
Density 1.05 +/- 0.5
Color Pale
Smell Negligible
Solubility Completed

FORMULATION

Liquid

CLASSIFICATION

Danger

PACKAGING

Tank 10 L
Tank 20 L

APPLICATION

INSTRUCTIONS FOR USE

For descaling surfaces use **SERRA CLEAN** diluted from 5 to 10 L/hl. Leave to act and rinse thoroughly. For the most stubborn encrustations apply with a brush or waterjet. For the same use the highest dosage and if necessary repeat the application after
